

Residential Solar Financing Program

Utilizing the State of Ohio, ECO-Link™ Program

Features:

- ❖ Requires **minimum up-front investment** to purchase a solar system and start realizing all the benefits
- ❖ Available for system sizes from 2K to 8.3kW
- ❖ Reduced rate financing, up to 3% under market for 5 years which helps maximizes your Return on Investment
- ❖ Utility savings and SRECs can cover a substantial part of your loan payments
- ❖ Apply Federal Tax Credit to the loan to reduce payoff times

An investment in a solar system typically requires the up-front cash for 100% of the system installation price prior to receiving the Ohio grant and Federal Tax credits. Now with this new Dovetail Solar and Wind program, customers can borrow, at a reduced rate, the cost of a system less the amount of the eligible state grant. Once you are approved for the State of Ohio energy grant and Eco-Link program you can start your solar project by making a small deposit with Dovetail to schedule the installation. When Dovetail begins the installation you will then pay 75% of the after grant installation price, usually from your Eco-link loan. The remaining 25% is due upon completion of the project and system commissioning.

Here is an example of the finance amounts required for some of Dovetails most popular system sizes:

System Size	2.11kW System	3.17kW System	4.22kW system	5.54kW System
Total Installation Price	\$18,780	\$25,275	\$32,725	\$41,250
Ohio Energy Grant	\$6,336	\$9,504.	\$12,672	\$16,332
Net, After Grant Cost <i>(Potential amount financed)</i>	\$12,444	\$15,771	\$20,053	\$24,918
75% at start of Install	\$9,333	\$11,828	\$15,039	\$18,688
25% at Completion	\$3,111	\$3,942	\$5,013	\$6,229

Your Dovetail sales person can provide a complete financial analysis showing you how this program along with Solar Renewable Energy Credits and reduced utility bills can help you pay for a Solar Electric system faster than ever before!

Dovetail requires a 10% deposit of the system price to initiate the program. The deposit will be returned after Dovetail has received the grant funds from the State at the conclusion of the project. We complete the majority of all grant paperwork, but require your assistance to complete the final grant paperwork after final system inspection by the local building authorities.
